

60 mm C-Shaped Line Scan Light

LS-LNC-60 series · Line scan lights · 1 model

60 mm C-Shaped Line Scan Light. C-shaped line scan light with a tight arrangement of high-power LEDs and a semicircular emitting surface for a large emitting angle and wide coverage. Fan cooling keeps temperature distribution even.

Features

- Using a tight arrangement of high-power LEDs, high brightness and uniformity.
- Utilizing fan-cooling, ensuring even temperature distribution and excellent cooling performance.
- Adopting a semicircular light-emitting surface, large light-emitting angle and wide coverage.

Applications

- Semiconductor material edge inspection
- Arc edge defect detection
- Cylindrical product surface defect

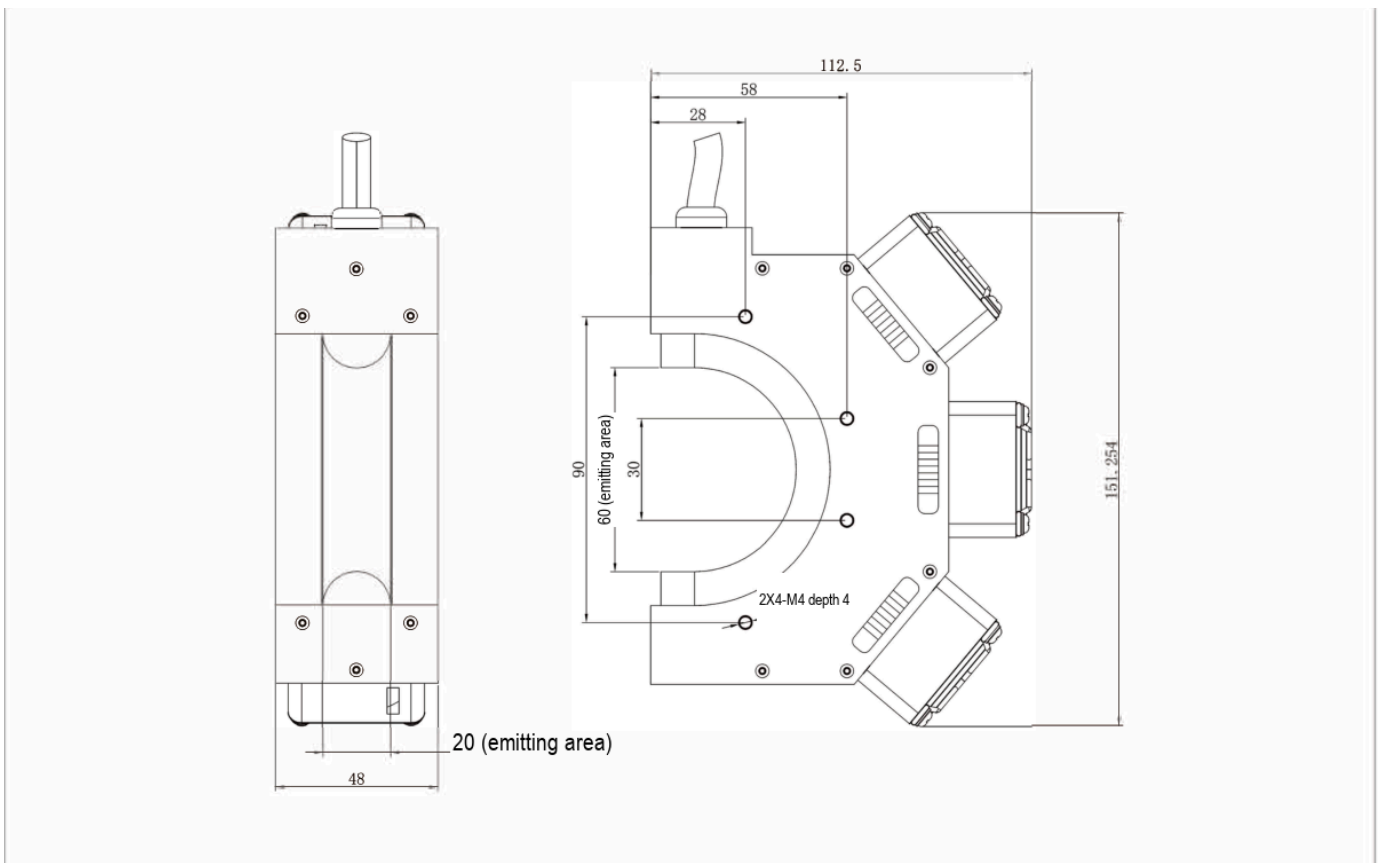

Common specifications

WD (mm)	20-50
Emitting area (mm)	60
Power R (W)	50
Power W/G/B (W)	58
Outer size L x W x H (mm)	112.5x48x152
Colours	Red, Green, Blue, White, Infrared
Cooling	Fan cooled
