

Flat dome light (SF series)

LS-SF series · Dome lights · 3 models

Flat dome light: a thin square panel that lights the part through a light-guide diffuser plate. High output suits high-speed inspection, in a lightweight, compact design that installs with screw-thread grooves.

Features

- High output suitable for high-speed inspection.
- Installation with screw-thread grooves.
- Light weight and compact design.

Applications

- Metal, curved, textured surface inspection (appearance & printing)
- Food/packaging character recognition
- Can surface printing check
- Uneven food bag character recognition
- Metal piece solder presence/absence detection
- Plastic film adhesion test
