

Point light source (D series)

LS-D series · Spot lights · 1 model

High brightness with a small luminous area; compact, efficient heat dissipation, low power consumption and long lifespan. Replacement for fibre-optic halogen lamps, especially suitable for coaxial illumination through lenses.

Features

- High brightness, small luminous area
- Compact, efficient heat dissipation, low power consumption and long lifespan
- Replacement for fibre-optic halogen lamps, especially suitable for coaxial illumination of lenses

Applications

- Coaxial illumination through a coaxial lens

Colours

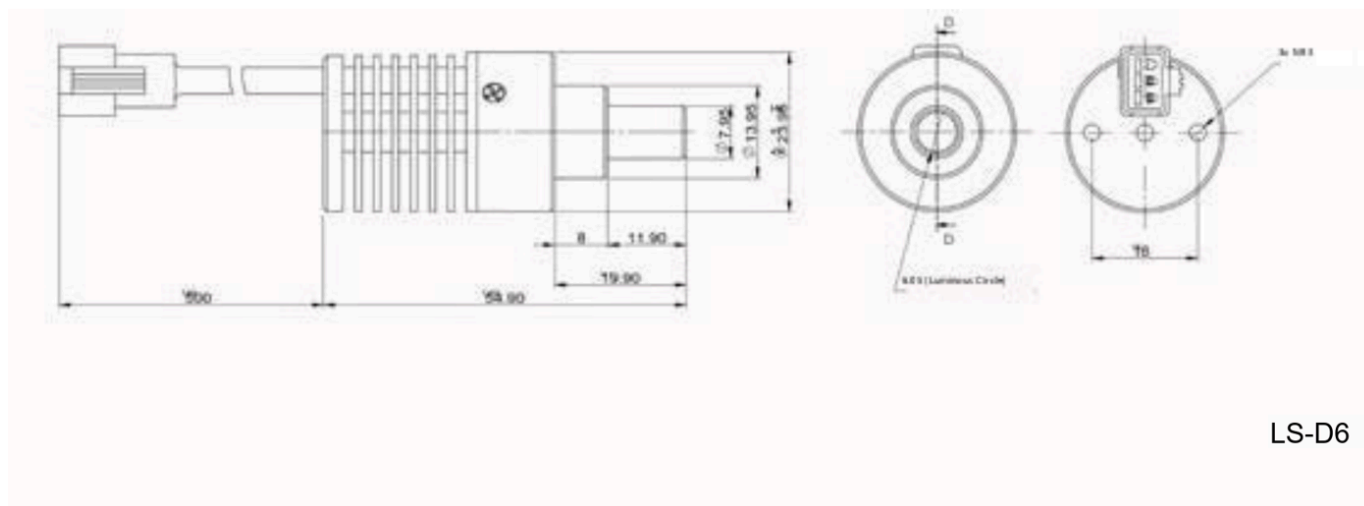

R	Red
G	Green
B	Blue
W	White
IR	Infrared
UV	Ultraviolet

Ordering code: LS-D<light-emitting area code>-<R/G/B/W/IR/UV> (example LS-D6-R)

Models

Model	Front tube dia. (mm, drawing)	Nose length (mm, drawing)
LS-D6 colours: R, G, B, W, IR, UV	7.95 / 13.95	19.90 (8 + 11.90)

Dimensions

LS-D6
