

Digital controller box

LS-DPC-Z3 series · Light controllers · 1 model

Digital controller box with constant-on and strobe modes, 0-255 ms strobe lighting time, 10 us short delay time and 256-level luminance adjustment.

Features

- High cost-effective
- Constant on and strobe mode optional
- 0-255ms strobe lighting time can be set
- 10us short delay time, 256-level luminance adjustable

Models

Model	Product	Output voltage	Total output power	One way max. output power	Number of channels	Dimension (table column)	External trigger voltage
LS-DPC2480	Digital control box	24V	80W	80W	4	1	5-24V

More values per model (Baud rate, Input voltage, Total output current, Luminance adjustment method, Luminance adjustment mode, Working mode, Trigger delay time, Luminance adjustment level, Memory function, Overcurrent protection status, Communication mode, Constant on / off switch...) are on each product page.
